King's Indian with g3

International Master LEONID BASS

Series Editor: IM Andrew Martin

TRENDS PUBLICATIONS 1990

£3.50 (UK only)

Hello everybody!!

We are a group of chess fans who are producing new chess material. We have members from all around the world, belonging to different cultures and speaking different languages, all of us joined by our common love for chess! We hope you will enjoy our work!

If you are interested in joining us, or send any comments drop us an email at: caissa_lovers@yahoo.com.

Best regards!!

Hola a todos!

Somos un grupo de fanáticos del ajedrez, que estamos tratando de producir nuevo material como este, desarrollando diferentes proyectos e ideas. Tenemos miembros de diferentes partes del mundo, provenientes de diferentes culturas, hablando diferentes lenguas, unidos por nuestra pasión por el ajedrez!. Esperamos que disfruten de esta muestra de nuestro trabajo!.

Si alguien estuviese interesado en unirse al grupo nos pueden escribir a: caissa_lovers@yahoo.com.

Saludos!

Caissa Lovers

Chapter Five	Black plays  bd7 & e5	27

Introduction

White's play in the fianchetto variation is simple and dangerously effective. He establishes a presence in the centre but makes his king as safe as possible against any projected Black attack. His bishop on g2 is both efficient as a defender and as an aggressor in the central zone.

In my selection of the games in this booklet, I have had to choose from a wealth of information. It has been challenging to identify the important modern **Trends** but I think that through a rigorous, nay spartan, selection I have been able to do this.

I humbly present "**Trends in The King's Indian with g3**" to you.

Leonid Bass,

Madrid,

April 1990

(C) Trends Publication

April 1990

A TRENDS PUBLICATION PRODUCTION

CHAPTER ONE

Black plays c6, Qf5 & e4

Black's idea in this line is to exchange the knight on f6 for the one on c3, and place the bishop on e4, blockading White's e2 pawn. The struggle revolves around White's ability to regain control of the e4 square without exchanging white-squared bishops.

Games 1 - 2 illustrate unorthodox White reactions. Games 3 - 7 reflect the current state of theory. The most important is game 7, featuring the move 11 Bcl.

CHAPTER THREE

Black plays ♜c6, a6,
 ♜b8 and b5

This is one of the most fashionable plans in the King's Indian, and White has many different methods to deal with it. In *games 30 - 31* White chose to expand on the queen-side by means of a3 and b4, but in Dreev - Gurevich (*game 31*), Black had few problems.

Games 32 - 33 provide an example of 8 b3 and 9 ♜d5. In both games Black tried a new continuation on move nine. 34 - 45 see White rapidly deploying his dark squared bishop to g5 or e3, and after exchanging on b5, concentrating an attack along the c file. *Games 34 - 37* feature ♜g5 while the rest provide examples of the more common ♜e3. *Games 46 - 50* see the very sharp line 9 e4 b5. Goldin - Grunberg (*game 50*) is very interesting from a theoretical point of view. *Games 51 - 60* witness examples of the struggle arising from 8 or 9 d5 ♜a5.

CHAPTER FOUR

Black plays ♖c6 & e5

Black plays an early e5, but with the queen's knight on c6, in contrast to the more classical ♖bd7. Usually, White answers ... e5 with d5 and the Black knight goes to e7. In the resultant position, White attacks along the c file by means of c5 and Black looks for counterplay on the king's wing.

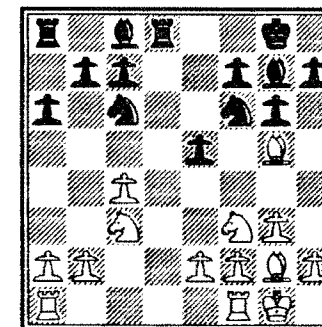

Game 61 features the exchange of pawns on e5,

which is considered less dangerous for Black. Games 62 - 65 provide an example of White strategy after 7 ... e5 8 d5 when the White e pawn goes to e4. In games 66 - 67 White keeps this pawn on e2. Romanishin's handling of this line against Grunberg (game 67) is impressive.

CHAPTER FIVE

Black plays ♖bd7 & e5

This is the most popular line against the g3 King's Indian. Black, if allowed, will move the central pawns as follows: c6, e4 & d5. White, however, seldom allows this. Usually White will exchange pawns on e5, intending to penetrate along the d file, or

play e4 himself. The latter results in Black exchanging on d4 and the weakness on d6 is then counterbalanced by Black's active piece play.

Games 68 - 74 provide examples of White avoiding e2-e4. Games 75 - 78 feature White exchanging on e5 and then placing his pawn on e4. In games 79 - 82 Black rapidly attacks the White c4 pawn with 8 e4 ♞e8 9 ♞e1 ed 10 ♞d4 a6 11 h3 ♞e5 12 b3 c5 13 ♞c2 ♞b8 14 ♞b2 b5. Games 83 - 85 see Black not exchanging on d4 but playing h6, ♞fh7, ♞hg5 increasing the pressure on the a1-h8 diagonal. games 86 - 87 feature the plan of attacking the c4 pawn by means of ♞a5, ♞b4 & ♞b6. Games 88 - 93 deal with Black's ♞b6. This idea, combined with ... ♞e8 is quite interesting and Muco - Uhlmann (game 90) deserves special attention. Games 94 - 100 offer additional examples of play in this line of the g3 King's Indian.
